Createspace, United States, 2015. Paperback. Book Condition: New. 216 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Butterfly populations have suffered a serious and rapid decline over the last few decades. The monarch butterfly in particular is disappearing at an alarming rate and is becoming endangered in North America. Climate change and human activity have resulted in the loss of habitat for these creatures, but by learning about butterflies and their needs we can all act to help these amazing insects to survive. In this book for elementary school-aged children, the author uses stunning, original photographs and simple text to bring us the message of the butterflies by explaining their role in nature, how they are endangered, and how we can help them. Text boxes throughout the book provide word definitions and fun facts. Adults will enjoy sharing the book with children and even young children will learn a lot from the pictures. A section for parents and teachers at the end of the book includes ideas for discussion and projects, as well as a page listing plants that are easily grown and will attract butterflies. Children also have a page to record their own butterfly sightings and write about the butterflies they ve seen. The strong emphasis on conservation and the environment will encourage readers to think about such topics as the food chain, the effect of pesticides and the protection of wildlife habitats. This book is part of the Nature on Our Doorstep series, designed to inspire children to learn about the world around us.
