*****.Some day we shall have a science of education

comparable to the science of medicine; but even when that day

arrives the art of education will still remain the inspiration and

the guide of all wise teachers. The laws that regulate our

physical and mental development will be reduced to order; but

the impulses which lead each new generation to play its way

into possession of all that is best in life will still have to be

interpreted for us by the artists who, with the wisdom of years,

have not lost the direct vision of children. Notice: This Book is
