

## Exercises in electrical magnetic measurement

Filesize: 4.47 MB

### ***Reviews***

*Great e book and beneficial one. It is amongst the most awesome pdf i actually have read through. You wont feel monotony at at any time of your own time (that's what catalogs are for relating to if you request me).*

*(Dorothy Daugherty)*

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 52 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1891 edition. Excerpt: . . . the deflections 280 20 and 210 respectively. If on another occasion a current of a certain strength produce a deflection of 370 in the galvanometer A, what deflection would the same current have produced in B When a tangent galvanometer is inserted in a circuit with the plane of its coil coinciding with that of the magnetic meridian, a current of strength,  $c$ , will produce a deflection,  $\theta$ , the two being connected by the equation  $c m \tan \theta$ , where  $m$  is a constant whose numerical value depends upon the construction of the particular instrument and upon the intensity of the local magnetic field. Let  $m_1$  and  $m_2$  be the values of the constant  $m$  for the two galvanometers A and B; then from the first experiment we have  $m_1 \tan \theta_1 = m_2 \tan \theta_2$ . Let  $\theta_2$  be the number of degrees of deflection of B when the second current is passing through it, then we shall have (23. ) The current from a battery (A) when sent through a certain tangent galvanometer produces a deflection of 18 30, while the current from another battery (B) on being sent through the same galvanometer produces a deflection of 260. Compare the strengths of the two currents. Answer. As 69: 100, nearly. (24. ) A tangent galvanometer of very small resistance was included in a circuit consisting of a series of 12 cells and a wire resistance...
