MEASUREMENT AND CALCULATION OF MULTICOMPONENT-DIFFUSION AND REACTION IN CATALYST PARTICLES, EFFECT OF THE CATALYST PORE STRUCTURE

Cuvillier Verlag Jan 2010, 2010. Taschenbuch. Book Condition: Neu. 211x146x17 mm. Neuware - A realistic diffusion system, multi-component diffusion, accompanied by a relatively simple reaction, a single reaction with simple molecules, is investigated experimentally using commercial pellets at mild conditions. The motivation was to elucidate the effect of pore structure for simultaneous diffusion/reaction systems in general. The results can be used to investigate the multi-component interactions between different components, to determine an optimum pore structure and/or to check if the...

Reviews

This publication is definitely not straightforward to begin on looking at but quite fun to see. It really is loaded with wisdom and knowledge You will not really feel monotony at anytime of your own time (that's what catalogs are for relating to should you check with me).

-- **Twila Gutkowski**

Most of these ebook is the ideal book offered. It is rally interesting through reading through time. Your way of life span will be enhance the instant you complete reading this ebook.
