

Deterministic Global Optimization: Geometric Branch-and-bound Methods and their Applications (Paperback)

Filesize: 8.38 MB

Reviews

I actually started off looking at this pdf. It is one of the most amazing pdf i have got read. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Milford Donnelly)

DETERMINISTIC GLOBAL OPTIMIZATION: GEOMETRIC BRANCH-AND-BOUND METHODS AND THEIR APPLICATIONS (PAPERBACK)

To get **Deterministic Global Optimization: Geometric Branch-and-bound Methods and their Applications (Paperback)** eBook, please follow the button listed below and save the document or gain access to other information which are in conjunction with DETERMINISTIC GLOBAL OPTIMIZATION: GEOMETRIC BRANCH-AND-BOUND METHODS AND THEIR APPLICATIONS (PAPERBACK) book.

Springer-Verlag New York Inc., United States, 2014. Paperback. Book Condition: New. 2012 ed.. 235 x 155 mm. Language: English . Brand New Book ***** Print on Demand *****.This monograph deals with a general class of solution approaches in deterministic global optimization, namely the geometric branch-and-bound methods which are popular algorithms, for instance, in Lipschitzian optimization, d.c. programming, and interval analysis. It also introduces a new concept for the rate of convergence and analyzes several bounding operations reported in the literature, from the theoretical as well as from the empirical point of view. Furthermore, extensions of the prototype algorithm for multicriteria global optimization problems as well as mixed combinatorial optimization problems are considered. Numerical examples based on facility location problems support the theory. Applications of geometric branch-and-bound methods, namely the circle detection problem in image processing, the integrated scheduling and location makespan problem, and the median line location problem in the three-dimensional space are also presented. The book is intended for both researchers and students in the areas of mathematics, operations research, engineering, and computer science.
